

# Small Businesses, Big Plans!

The launch of our new website at California Well Being Insurance Agency (CWBIA) is geared toward providing small businesses with an easier and more efficient way of acquiring health insurance for their employees. It not only provides them with access to the 'Group Census Form' that is necessary for us to initiate a proposal, but it also allows them to get a snapshot of the kinds of services we provide and who we are as a company. We have found that many small businesses do not seek group insurance due to unawareness of their options and lack of information so we're doing something about it with this new site.

As an insurance agency, we aim to provide the utmost customer service to our clients. We stick with them from the beginning and help them make informed decisions about the kinds of plans they can offer their employees. But we don't stop there! After they have enrolled their group in a plan, we continue to submit enrollment, termination, and change forms when certain situations arise for their employees and we remain available as their source for any other health insurance concerns.

"As the designer for this new site, I am excited to see how much more small businesses are willing to work with us as their supplier of information and advocate - it's a one-stop shop for all health insurance needs," says Brittany Aranda, an agent and marketing specialist for CWBIA.

"This new site was so convenient for me to use when trying to find health insurance for my employees. I was able to send the census form to the agents at CWBIA and within 30 minutes they were able to provide me with a proposal." - New small business owner and client of CWBIA

To get started with this process, simply go to <https://brittany297.wixsite.com/cwbia>, click on the link that says, "Click here...", then send your completed group census form to [jerry@medical-ins.com](mailto:jerry@medical-ins.com). One of our agents will then reach out to you within 24 hours of submitting your form to discuss the direction you'd like to go with your group's health insurance.
